BACKGROUND

The Institute of Public Administration Australia, Western Australian Division (IPAA WA) established in 1945, is a not-for-profit professional association which enables those with an interest in public administration and public sector reform to exchange ideas on trends, practices and innovations. Our purpose is to advance excellence in the public sector.

IPAA WA is an Association incorporated under *the Western Australian Associations Incorporation Act 2015* and is affiliated with, supports, and is represented on the national council of the Institute of Public Administration Australia Inc (National Council).

IPAA NATIONAL AND OTHER STATE AND TERRITORY DIVISIONS

The National Council was established as a Federation of State Divisions. The Divisions operate independently and form the basis for membership recruitment and service delivery, including the running of seminars, conferences and training programs related to developments and trends in public sector management.

Each State and Territory Division can nominate an individual to represent them on the National Council from time to time as spelled out in Clause 12 of the IPAA National Constitution.

The National Council is a representative body, responsible for supporting the Divisions, and providing strategic leadership, policy direction, and managing its international connections. It recognises the administrative autonomy of each Division and does not seek to influence the day-to-day decision-making processes of any Division or its management. Each Division is directly accountable to its State or Territory membership and therefore the National Council is responsible to the broader membership Australia-wide.

CORPORATE GOVERNANCE

While the Constitution¹ provides the legal framework for IPAA WA, the day to day operations are set out in this governance charter, which has been endorsed by the IPAA WA Committee of Management (Council). This charter specifies the roles and responsibilities of the Council and its members by clearly spelling out the rules, procedures and structures employed by IPAA WA to achieve its corporate objectives.

 - (a) as soon as he or she becomes aware of that interest, disclose the nature and extent of his or her interest to the Council;

The potential for conflict of interest may arise from the following examples:

While the varied experience and expertise of Councillors is invaluable in assisting in deliberations and decision-making, such personal and organisation linkages can create the potential for actual or perceived conflicts of interest.

IPAA WA has developed this policy to ensure that any potential conflicts of interest (actual or perceived) are identified and managed in a manner which:

- is ethical;
- complies with common law;

- promotes effective decision-making in the best interests of IPAA WA;
- protects the reputations of individual Councillors, the Council and IPAA WA.
